General Consent

Thank you for choosing Colerain and Western Hills Family Dentistry for your dental care. We are excited to work with you to help achieve excellent oral health. While recognizing the benefits of a healthy smile and teeth that function well, you should be aware that dental treatment, like treatment of any other part of your body, may have some inherent risks. These risks are seldom great enough to offset the benefits of treatment, but it is our responsibility to make you aware.

Benefits of dental treatment can include: relief of pain, the ability to chew properly and the confidence and social interaction that a healthy smile can bring. Nonetheless, there are some possible risks associated with dental procedures, including:

- Drug or chemical reaction. Dental materials may trigger allergic or sensitivity reactions.
- Long-term numbness (paresthesia). Local anesthetic, or its administration, while almost always adequate to allow comfortable care, can result in transient, or in rare instances permanent numbness.
- Muscle or joint tenderness. Holding one's mouth open can result in muscle or jaw joint tenderness, or in a predisposed patient, precipitate TMJ disorder.
- Sensitivity in teeth and gums and bleeding
- Swallowing or inhaling small objects

While we always follow procedural guidelines, which most often lead to clinical success, there are occasional cases, as with any medical treatment, that do not turn out as planned. We do our very best to assure that it does. Patient care and comfort is our utmost priority. Please feel free to ask questions in regards to all the dental procedures that are recommended to you. Thank you for reading the Financial Policy and General Consent.
